Experience

Associate Data Visualization Enthusiast

Jan 2026 – Sep 2026

Hexalytics, Chennai, Tamil Nadu

- Worked across **3 different client projects**, contributing to frontend development, feature implementation, API integration, debugging, and maintenance using **React, Next.js, TypeScript, and modern UI libraries**.
- Developed and **delivered 6+ application screens and key features**, while also resolving issues across multiple existing modules.
- Raised and contributed to **200+ Pull Requests** covering new feature development, bug fixes, UI enhancements, API integrations, and code improvements, while collaborating with the team through code reviews and testing.

Frontend Developer

Sep 2024 – Dec 2025

EVE Technologies, Kolkata, West Bengal

Frontend Developer | *Jun 2025 – Dec 2025*

- Designed and developed a **SaaS-based React HRMS dashboard**, improving HR data accessibility for blue-collar operations.
- Integrated **REST APIs** in collaboration with backend team, improving data reliability and reducing integration issues.
- Migrated three production applications (**FOS, HRHO, WEBMASTER**) from **Angular to React**, improving performance and reducing technical debt.

Junior HTML Developer | *Sep 2024 – Jun 2025*

- Developed and maintained responsive web interfaces using **HTML, CSS, JavaScript, and Bootstrap/Tailwind CSS**.
- Converted **UI designs** into responsive, cross-browser-compatible web pages.

Python Trainee

Jan 2024 – Feb 2024

Navigators Software, Kolkata, West Bengal

- Gained hands-on experience with **Flask** for web application development with **Python** fundamentals.

Intern

Jun 2023 – Sep 2023

IMEET Technology, Mathura, Uttar Pradesh

- Got privy to the **Html, CSS, JavaScript & React fundamentals**.

Projects

Taskify – SaaS-Based Task Management Application (Full-Stack)

React.js, JavaScript, Vite, Tailwind CSS, Firebase-DB, Axios, Redux-Toolkit, Express, Node.js, ShadCN

- Developed a scalable **Task Management Platform** using **React** with **Firebase DB** for 'CRUD' functions.
- Implemented **Form Handling, API integrations & requests, state changes, real-time sync** with **Firebase** and **Responsive UI Components**.

Trek Manthan – SaaS Scalable HRMS & CMS Dashboard with Website (Full-Stack)

Next, JavaScript, TypeScript, Tailwind CSS, MongoDB, Mongoose, Axios, Redux, Express, Node.js, Apache-Echarts, ShadCN

- Built a travel website along with an admin panel that gives admin user to control the info and the assets used in the website.
- Works as both CMS and a HRMS architecture from the backend part integrated with an efficiently made frontend.

Education

B.Tech in Computer Science & Engineering

Jul 2022

Brainware University, Barasat, West Bengal

CGPA: 7.75
